### **ACCESS TO SCHOOL NETWORK/INTERNET GUIDELINES**

Students have access to computers throughout the school. Each teaching area may have its own guidelines. Students are required to respect them.

Please be advised that it may be possible for your son/daughter to encounter material, which is inaccurate, banned or not acceptable. While we do actively discourage and limit access to such material, it is not possible to prevent all access. Burnaby North supports privacy of electronic mail but cannot guarantee it.

Using the network will enable students and teachers to:

- Access on line subscriptions financed by the school district.
- Access resources that will support their work in and out of the classroom.
- Use electronic resources to access current information in international libraries and databases (e.g. newspapers from around the world, electronic reference books, etc.)
- Work cooperatively with fellow students/teachers on international learning projects.
- Gain technological skills and promote their understanding of telecommunications and the world of Information Communication Technology (ICT).

Students need to understand when working on the Internet that humour and sarcasm do not always translate well. Students need to be sensitive to our global community.

**Please refer to the "Burnaby North Secondary Acceptable Use Policy for Student Internet / Network Use", which is posted on the school website: <http://north.sd41.bc.ca>**

### **Internet/Network Agreement Student Acceptance**

I have read Burnaby North's Acceptable Use Policy for Students and agree to abide by the rules within it. I also agree to abide by any additional school and classroom rules concerning my personal use of the computers and the network. Should I not follow the acceptable use policy, I understand that I may lose all computer and network privileges and be subject to disciplinary action.
